AI Engineer and Full Stack Developer with 2.5+ years of production experience at Grant Thornton Bharat LLP, delivering enterprise technology in a Big-5 consulting environment. Specialises in agentic AI systems, RAG pipelines, and LLM application development using LangChain and LangGraph, complemented by full-stack engineering across React, Node.js, FastAPI, and PostgreSQL. IBM Certified in RAG and Agentic AI (2026).

EXPERIENCE

Senior Associate — AI Engineer & Full Stack Developer

Sep 2023 – Present

Grant Thornton Bharat LLP · Noida, Uttar Pradesh

- Engineered 200+ RESTful endpoints and a 500+ component React library across high-value supply chain and ticketing engagements in a Big-5 consulting environment.
- Built Azure DevOps CI/CD pipelines from scratch; reduced release cycle from 2 days to 4 hours, cutting effort by 40%.
- Maintained 99.9% platform uptime over 12 months with SLA obligations; resolved 500+ production tickets with avg. resolution under 4 hours.
- Delivered real-time KPI dashboards to 3,000+ daily business users, replacing manual Excel reporting and saving 3+ hours/week per stakeholder.
- Reduced recurring incident frequency by 60% through root cause analysis and permanent platform fixes.
- 2x Spot Award winner (Mar 2025 & Sep 2025) for consistent high-quality delivery and technical excellence.

PROJECTS

QueryAI — Natural Language BI Platform

Mar 2026 – Present

Personal Project · Agentic AI · NL2SQL

Production-grade multi-tenant NL2SQL platform. Connect a PostgreSQL DB or upload CSV, ask questions in plain English, get interactive dashboards with AI-generated insights in real time via SSE streaming.

6-node LangGraph pipeline — query router, SQL agent, ReAct reasoning, reflection validator, chart selector, anomaly detection

Multi-tenant security — httpOnly JWT, parameterised SQL, Pydantic v2 validation, user data isolation at DB level

Live AI reasoning trace — real-time collapsible SSE stream of every agent decision step

React 18 TypeScript FastAPI LangChain 0.3+ LangGraph 0.2+ OpenAI GPT-4o-mini
PostgreSQL SQLAlchemy 2.0 Tailwind CSS

Pharmacy E-Commerce Platform

Feb 2026 – May 2026

Personal Project · Full Stack · E-Commerce

Production-grade full-stack pharmacy platform with four distinct portals (customer storefront, admin dashboard, offline CRM, pharmacist portal), live payment processing, DLT-compliant SMS, and self-managed Docker + Nginx cloud infrastructure.

Multi-role architecture — 4 portals with isolated access control in one codebase; 25+ screens, 40+ API endpoints, 22+ DB tables

Razorpay integration — HMAC-SHA256 webhook verification, server-side cart re-validation as price manipulation defence

Self-managed infra — Dockerised 4-container stack, Let's Encrypt SSL, automated daily pg_dump backups to AWS S3

React 18 Node.js Express.js PostgreSQL 16 Redux Toolkit Bootstrap 5 Docker
Nginx AWS S3 Razorpay

Enterprise Projects @ Grant Thornton Bharat LLP

Supply Chain Traceability Platform · Full Stack Developer

End-to-end supply chain visibility for 4 stakeholder groups; 200+ API endpoints, 500+ React components, CI/CD pipeline, real-time KPI dashboards for 3,000+ users.

React Node.js PostgreSQL Chart.js Keycloak Redux Toolkit Bootstrap
Material-UI Azure DevOps

Supply Chain Platform: Production Support · Support Engineer

99.9% uptime over 12 months; 500+ tickets resolved, avg. resolution <4 hrs; 60% incident reduction via root cause analysis and permanent fixes.

Enterprise Ticketing System · Full Stack Developer

Multi-tenant SaaS ticketing platform; full lifecycle from requirements analysis through delivery; 20% ticket volume reduction via pre-emptive platform improvements.

TECHNICAL SKILLS

AI Engineering

LangChain, LangGraph, Agentic AI Systems, RAG Pipelines, Multi-Agent Orchestration (CrewAI, AutoGen), Prompt Engineering, OpenAI API, Gemini API, Hugging Face Transformers, Vector Databases (FAISS, Chroma DB), MCP, Google ADK

Frontend

React 18, TypeScript, JavaScript, Redux Toolkit, Zustand, TanStack Query, Tailwind CSS, Bootstrap, Material-UI, Recharts, Chart.js, React Hook Form, HTML5 / CSS3

Backend
